

Engine

BIZOL PRESS RELEASE

three types of engine overheating

05/05/2022

- overheating can result in wear and tear of all parts of the engine practically.

BIZOL Radiator Clean+ r70

If the overheating is not caused by mechanical damages, the above problem can be avoided by BIZOL Radiator Clean+ r70 cooling system cleaner

- dissolves and removes coolant deposits
- removes sludge
- removes contaminations from the cooling system
