

Cooling system

BIZOL PRESS RELEASE

deposits / contaminations in the car radiator

05/05/2022

With time, especially when hard water is used, deposits are formed in the car cooling system together with contaminations formed by engine oil and sludge.

BIZOL Radiator Clean+ r70

Car cooling system cleaner

- dissolves and removes coolant deposits
- removes high-temperature sludge efficiently
- removes oil contaminants from the car cooling system efficiently
